HIPAA COMPLIANCE

The attached HIPAA notice describes how mental health information about you may be used and disclosed and how you can get access to the information. Please review it carefully. If you have any questions about this notice please let me know.

This Privacy Notice tells you about your rights about your mental health care records. You may review this request at any reasonable time or you may request a copy. A new government rule requires that I give you this Privacy Notice to sign.

My policy has always been to keep your records safe. Your records are usually kept in a folder of papers with your name on it. Your records can also be stored in a computer or locked file cabinet. Your records tell what analysis and treatments you have had and what decisions the counselor has made.

Full HIPAA compliance Rules and Regulations are posted in my therapy office at all times and may be read and copies furnished upon your request.

PROFESSIONAL DISCLOSURE STATEMENT

Qualifications: I am a Licensed Professional Counselor. My formal education has prepared me to counsel individuals, couples, parents, and families.

Nature of Counseling: My theory of counseling is that people have specific behaviors they would like to change, which may be caused by irrational, self-defeating beliefs learned early in the developmental cycle. Due to these beliefs and/or experiences with various traumatic events, individuals may experience life as unmanageable. My goal will be to assist clients with changes in irrational beliefs, working through traumatic life events as well as working with the stress component associated with physical pain and illnesses. I am a psychotherapist and have certified credentials in Internal Family Systems (IFS), Eye Movement Desensitization and Reprocessing (EMDR), and Emotional Transformation Therapy (ETT). I have been licensed as an ETT Teacher & Consultant in this field. I have assisted in trainings as a Program Assistant (PA) in Internal Family Systems trainings. I also have a background in Developmental Needs Strategies (DNMS) & Neurofeedback even though I am not actively practicing in those two fields today. I have worked with trauma, anxiety, depression, and various other mental health conditions as well as life changing events. Some of my clients are active in a 12 step programs.

INFORMED CONSENT

Counseling Relationship: Sessions are scheduled in 50 minute sessions with the number of sessions per week dependent upon the client's symptoms and needs. Our sessions may be very intimate psychologically but ours is a professional relationship

rather than a social one. You will be best served if our sessions concentrate exclusively on your concerns.

Our sessions will be limited to the counseling sessions you arrange with me and I schedule appointments based on availability and your need. If you experience a mental health emergency, obtain crisis services by dialing 911 and/or by going to a nearby hospital emergency room.

Effects of Counseling: At any time, you may initiate discussion of possible positive or negative effects of entering, not entering, continuing, or discontinuing counseling. While benefits are expected from counseling, specific results are not guaranteed. Counseling is a personal exploration and may lead to major changes in your life perspectives and decisions. These changes may affect significant relationships, your job, and/or your understanding of yourself. Some of these life changes could be temporarily distressing. The exact nature of these changes cannot be predicted. Together we will work to achieve the best possible results for you.

Client's Rights: Some clients achieve their goals in only a few counseling sessions; others may require months or even years of counseling. As a client, you are in complete control and may end our counseling relationship at any time, though I do ask that you participate in a termination session or complete termination paperwork if a termination session is not feasible. You also have the right to refuse or discuss modification of any of our counseling techniques or suggestions that you believe might be harmful.

I assure you that my services will be rendered in a professional manner consistent with accepted legal and ethical standards. If at any time for any reason you are dissatisfied with my services, please let me know. If I am not able to resolve your concerns, you may report your complaints in writing to the Complaints Management and Investigation Section, Texas State Board of Examiners of Professional Counselors, P. O. Box 141369, Austin, Texas 78714-1369 or by calling 1-800-942-5540 to obtain more information.

Conditions of Ongoing Counseling: If you have been in counseling or psychotherapy during the past seven years, I encourage you to sign a release so I may communicate with and/or receive copies of records from the professional(s) from whom you received mental health services. While you are in counseling with me, you agree not to maintain or establish a professional relationship with another mental health professional unless you discuss it with me and sign a release that enables me to communicate with the other mental health professional(s). If you decide to maintain or establish a professional relationship with another mental health professional against my advice, I may consider this your decision to change counselors.

I also reserve the right to postpone and/or terminate counseling of clients who come to session under the influence of alcohol or drugs.

TELE-HEALTH INFORMED CONSENT

The tele-mental health services in this case will involve the use of video conferencing to provide counseling services. This document solely outlines consent for tele-mental health services. Please refer to the general informed consent for full-service outline. Please note that the terms outlined in the general informed consent are applicable in addition to this agreement and by signing this agreement, you are acknowledging that you accept the terms of both consent forms.

You are encouraged to clarify any concerns or questions with me and you have the right to terminate tele-mental health services at any time.

Program Used

I use a HIPAA compliant Zoom telemedicine program to provide video conferencing counseling services. This program is free to clients via a link or via a mobile app. The program abides by the Health Insurance Portability and Accountability Act of 1996 and the Privacy Rule and is mandated to their standards and regulation and abides by the **Health Benefits and Risks of Tele-mental health and Confidentiality**.

Tele-mental health services allow clients to have more access to services and offers more flexibility. Services can also benefit clients who are not available to attend a session on site, those who are physically disabled, and those clients who experience extreme social anxiety or agoraphobia which hinders their ability to receive face-to-face counseling.

Risks from tele-mental health counseling, include, but are not limited to, the possibility, despite reasonable efforts on the part of the therapist, that: the transmission of my medical information could be disrupted or distorted by technical failures; the transmission of my medical information could be interrupted by unauthorized persons; and/or the electronic storage of my medical information could be accessed by unauthorized persons. These risks are offset by my use of a HIPAA-compliant service which is encrypted for video tele-mental health communications.

You understand and acknowledge that (1) HIPAA-compliant Zoom is NOT an Emergency Service and in the event of an emergency, you will use a phone to call 911; (2) though you and I may be in direct, virtual contact through Zoom, Zoom nor I are providing any medical or healthcare services or advice including, but not limited to, emergency or urgent medical services; (3) Zoom facilitates videoconferencing and is not responsible for the delivery of any healthcare, medical advice, or care; (3) I do not have access to any or all of the technical information in the Zoom service or that such information is current, accurate, or up-to-date; (4) you will not rely on me to have any of this information in the Zoom service; and (5) to maintain confidentiality, you will not share your telehealth appointment link with anyone unauthorized to attend the appointment.

I will conduct sessions in private, but I cannot control the steps that will be taken on your end that may impact the security or privacy and confidentiality. I will not record sessions without your prior written consent.

If I believe you would be better served by another form of psychotherapeutic services (i.e. face-to-face), I will work with you to switch the form or you will be referred to therapists in your area who provide such services.

OTHER POLICIES

Cancellation Policy: In the event that you will not be able to keep an appointment, please notify me during business hours (Monday through Friday) at least 24 hours in advance, whenever possible. If this 24-hour notice is not respected, you will be billed for your session. By notifying me 24 hours in advance, it allows me to fill that time slot with another client who may be in need of counseling at that time.

Referrals: I recognize that not all conditions presented by clients are appropriate for treatment with me. For this reason, you and/or I may believe that a referral is needed. In that case, I will provide some alternatives including programs and/or people who may be available to assist you. A verbal exploration of alternatives to counseling will also be made available upon request. You will be responsible for contacting and evaluating those referrals and/or alternatives.

Fees: Please see “Fee For Services”.

Records and Confidentiality: All of our communication becomes part of your clinical record. Adult client records are disposed of seven years after the file is closed. Minor client records are disposed of five years after the client’s 18th birthday. All of our communication is confidential, except in the following cases: a) I am using your case records for purposes of supervision, professional development and research. In such cases, to preserve confidentiality, I will identify you by first name only or by assigning a number to your name; b) I determine that you are a danger to yourself or someone else; c) You disclosed abuse, neglect, or exploitation of a child, elderly, or disabled person; d) You disclose sexual contact with another mental health professional; e) I am ordered by court to disclose information; f) You direct me to release your records; or g) I am otherwise required by law to disclose information. If I see you in public, I will protect your confidentiality by acknowledging you only if you approach me first or I will acknowledge you but not disclose how we know each other.

In the case of marriage or family counseling, I will keep confidential (within limits cited above) anything you disclose to me without your family member’s knowledge. However, I encourage open communication between family members and I reserve the right to terminate our counseling relationship if I judge the secret to be detrimental to the therapeutic progress.

FEE FOR SERVICES

My fee is \$160 per 50 minute session. Payment is due at each session. Upon request, I will provide you with a “super bill” if you wish to file a claim for “out of network” insurance reimbursement. Any dispute over insurance reimbursement is between you and your insurance company.

By signing below, you certify:

- **You have read or had this document read and/or had this document explained to you;**
- **You fully understand its contents including the risks and benefits of the treatment(s);**
- **You have been given ample opportunity to ask questions and that any questions have been answered to your satisfaction;**
- **You have been furnished with a copy of this document if requested;**
- **You verify the accuracy of the statements herein and acknowledge your commitment to conform to the specifications and policies set forth;**
- **You are aware of your rights of confidentiality as a mental health consumer.**

The preceding certification applies to each portion of this document as if a signature was placed at the bottom of each individual portion: (1) Personal Data, (2) HIPAA Compliance, (3) Professional Disclosure Statement, (4) Informed Consent, (5) Tele-Health Informed Consent, (6) Other Policies, and (7) Fee for Services.
